## HIGH DENSITY RUBBER

CRS parts will outlast the competition guaranteed. We make the best ballistic parts on the market. We continue to gain customers who are tired of replacing parts due to high breakdown rates. CRS ballistic panels provide strength, elasticity, and durability.

## HIGH IMPACT

We have designed ballistic parts for high-impact applications like military, law enforcement, and private ranges. Our products can easily sustain thousands of high-velocity rounds while preserving their structural integrity.

## RANGE PARTS

Ballistic products offered are sheets, panels, blocks, and granulated rubber.

- 9" x 12" x 24' Ballistic Block
